

Prestressed concrete poles

vineyards, orchards, covering, fences

SELECTED RAW MATERIALS

Raw production materials are extracted from the local Piave River territory. On site quality control and supervision of supplies is conducted on a daily basis.

PRESTRESSED CONCRETE

The concrete is cast around carbon steel cables while they are under tension.

ADAPTABILITY

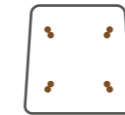

The poles' length and section are fully customizable upon client's request.

RESISTANCE, ROBUSTNESS, FLEXIBILITY

Prestressed concrete is well known for its greatest flexibility and reliability in stress conditions.

PACKING & LOGISTICS

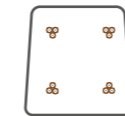

Spinazzè delivers poles worldwide packed for the best handling and transport.

7x7

4 BRAIDS X 2 WIRES (11 Kg/m)

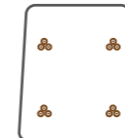

For vineyards and orchards in hilly areas or in small plots of land.

7x7 REINF

4 BRAIDS X 3 WIRES (11 Kg/m)

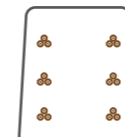

For vineyards and orchards, for better resistance and mechanized agriculture.

7x8

4 BRAIDS X 3 WIRES (12,8 Kg/m)

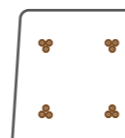

For vineyards and orchards in big plantations and windy zones.

7x8 REINF

6 BRAIDS X 3 WIRES (12,8 Kg/m)

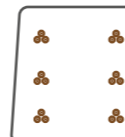

For vineyards and orchards, reinforced section for windy zones.

8,5x8,5

4 BRAIDS X 3 WIRES (16,5 Kg/m)

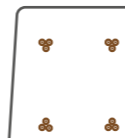

Robust version for vineyards and orchards. Often used in high espalier vineyards and in anti-hail flat net or hut style systems.

8,5x8,5 REINF

6 BRAIDS X 3 WIRES (16,5 Kg/m)

Robust version for vineyards and orchards with and additional reinforcement. Often used in high espalier vineyards and in anti-hail flat net or hut style systems.

9x9,5

4 BRAIDS X 3 WIRES (20 Kg/m)

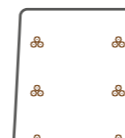

Used as endpost in vineyards or perimetral post in orchards. Standard version.

9x9,5 REINF

6 BRAIDS X 3 WIRES (20 Kg/m)

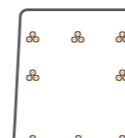

Used as endpost in vineyards or perimetral post in orchards. Reinforced version, suitable for anti-hail systems.

8x12

6 BRAIDS X 3 WIRES (25 Kg/m)

Robust pole used as endpost for vineyards in windy zones and as perimetral post in orchards. Standard version.

8x12 REINF

8 BRAIDS X 3 WIRES (25 Kg/m)

Robust pole used as endpost for vineyards in windy zones and as perimetral post in orchards. Reinforced version suitable for big orchard plantations.

13x14

12 BRAIDS X 3 WIRES (45 Kg/m)

Used as wind-break pole or corner pole in anti-hail systems.
